Title:	<b>Quality &amp; Environmental Policies</b>		

## Quality Policy

At Emmersons we aim to meet and exceed our customer requirements by providing exceptional print, on time and to specification.

We are committed to quality and service, and utilising the Quality Management System ensures an ongoing programme of improvement to our services. This includes investing in and maintaining the latest equipment and the very best personnel.

Our Quality Management System also enables us to support the achievement of our business objectives and to provide measurement of both our internal and external performance. We encourage a proactive and preventative culture, to meet the needs of our stakeholders, meet the requirements of ISO 9001 and comply with statutory requirements.

Regular investment along with our unrivalled commitment to customer service and continual personnel development keep Emmerson Press at the forefront of print.
